Yes. Looks like they are a little less than 5%.

John

Hi John, do you think what they've provided shows they meet the street grade standard in [165-128](#)?

Anja,

We understand that you've requested a plan/profile drawing of the East Broadway extension. Attached is a revised sheet C7. In the plan view portion, the grading for East Broadway's extension has been added, and we've added a new profile view of that extension.

Please verify that this meets with your needs.

Thanks
Scott
