I, the undersigned, do hereby certify that I have read, understand and will abide by the provisions of Chapter 265-1 and 265-2 of the Laws and Ordinances of the City of Bangor. In particular, I certify that I understand and accept the following conditions:

- A. Only acceptable solid waste shall be delivered to the Municipal Waste Solutions facility, including all ordinary household, municipal, institutional, commercial and industrial waste, refuse, and discarded materials which consists primarily of food

waste, combustibles, and recyclable materials. Examples of acceptable forms of solid waste are ordinary trash, plastic milk jugs and detergent bottle, tin and aluminum cans, empty aerosol cans and cardboard and paper.

- B. Waste that is NOT acceptable solid waste and will NOT be processed by the Municipal Waste Solutions at its Hampden, Maine, facilities include:
1. Demolition or construction debris from building and roadway projects or locations.
 2. Liquid waste or sludge.
 3. Abandoned or junk vehicles or vehicle parts.
 4. Hazardous waste or flammable waste.
 5. Dead animals or portions thereof or other pathological/biohazardous wastes.
 6. Water treatment residues.
 7. Tree stumps and yard debris including trees, sticks, branches, leaves, grass and weeds, brush, and woodchips.
 8. Tannery sludge.
 9. Waste oil, lubricants, or fuel including gasoline and propane.
 10. Paint and mastics.
 11. White goods, such as freezers, refrigerators, washing machines, dryers, stoves, air conditioners, or any good containing Freon or form of chlorofluorocarbons and/or hydrochlorofluorocarbons.
 12. Furniture, including mattresses, box springs, and sofas.
 13. Electronic waste ("e-waste"), includes items such as televisions, computers, monitors, phones, lithium batteries, and electronic items.
 14. Tires.
 15. Waste which in the reasonable judgment of Municipal Waste Solutions weigh station operator based solely upon a visual inspection has a BTU content of less than 4,000 BTU's per pound unless the waste fails to meet the aforesaid BTU minimum requirement solely because of the moisture content of such waste and such moisture content is due to abnormally wet weather conditions.
- C. The Hauler may be required to provide to the Public Works Director a list of all major users, and a description of all routes, which shall initially accompany this application, and shall be updated monthly. In addition, the driver of each of the commercial hauler's vehicles may be required to identify the source of each load on the weigh ticket at the Municipal Waste Solutions facility, either by route number or by the name of the commercial establishment if the load is from a single source. The Public Works Director or their agents shall have the right, upon reasonable notice, to inspect the records of the hauler as to the solid waste collected by them within the limits of the City of Bangor.
- D. Under a separate agreement with the Municipal Review Committee (MRC), the City has agreed that all acceptable solid waste generated within the City of

Bangor will be disposed of at the Municipal Waste Solutions facility, unless an alternate disposal site is designated by the City, the Municipal Review Committee, or by Municipal Waste Solutions. Alternate disposal sites will be designated by a formal Bypass Notice. Failure of the hauler to comply with this agreement may result in fines, penalties and/or revocation of license to haul solid waste within the City of Bangor after notice and hearing.

- E. It shall be the responsibility of the commercial hauler to ensure that the City of Bangor is given credit by the Municipal Waste Solutions facility for all acceptable waste collected within the City of Bangor and delivered to the Municipal Waste Solutions facility by them. In the event that acceptable solid waste collected by a commercial hauler within the City of Bangor is commingled in a vehicle with any other solid waste collected in any other municipality the commercial hauler shall have a method acceptable to the City to determine the weight of the solid waste collected within the City of Bangor. The commercial hauler shall provide documentation to the City of Bangor, upon request, for the amount of solid waste collected within the City of Bangor.
- F. Loads of waste delivered to Municipal Waste Solutions from other communities by the hauler shall not be represented as coming from the City of Bangor. Discovery of misrepresentation of origin may result in the revocation of the hauler's license to haul from the City of Bangor.
- G. In the event that the hauler disposes of any unacceptable waste at the Municipal Waste Solutions facility, said waste shall be immediately removed from the said Municipal Waste Solutions facility by the hauler at the hauler's expense, or by the City or its agents, with double the cost of removal and disposal to be billed to the hauler. Repeated disposal of unacceptable waste at the Municipal Waste Solutions facility by the hauler may result in revocation of the hauler's license by the City.
- H. The hauler may be required by Municipal Waste Solutions to regulate their hours of delivery to the Municipal Waste Solutions facility.
- I. The hauler shall use only vehicles which are capable of discharging their loads on the Municipal Waste Solutions facility tipping floor by mechanical means. Included within the category of vehicles permitted to tip are: standard solid waste packer trucks, transfer trailers and hydraulic dump trucks. In addition, all solid waste vehicles entering the facility shall have their loads enclosed with a container or covered securely by means of a tarp. No pickup trucks, so called, or other vehicles which would require manual unloading, either by design or by

reason of malfunction, shall be permitted to haul solid waste to the Municipal Waste Solutions facility. The ultimate determination of suitability of haul vehicles will be made by Municipal Waste Solutions.

- J. The hauler will be billed weekly for the total tonnage delivered by them to the Municipal Waste Solutions facility from the City of Bangor at a rate per ton equal to the sum of the current tipping fee price, any administrative fees charged to support multijurisdictional solid waste activities, and a 1% City of Bangor administrative fee, said billing to be done by the City of Bangor or its designated agent. The City reserves the right to adjust the tipping fee from time to time as may be necessary to defray its total cost of solid waste disposal; however, the City guarantees that it will charge the same tipping fee to all commercial haulers within the City of Bangor. Payment shall be due and payable within thirty (30) calendar days from the date of the invoice. Late payments shall be subject to the same rate of interest as is in effect at the time for delinquent property tax payments. Failure to pay within the prescribed time may result in temporary suspension of the hauler's license until payment is received. The City Finance Director may also require licensed haulers to post a payment bond or such other guarantee acceptable to the City Solicitor to insure financial capacity of such haulers to meet required payments to the City. Posting of bond or other guarantee may be required if a licensed hauler has failed to make timely payments of all fees billed and whose license was suspended.
- K. The hauler shall be fully responsible for the handling of waste between its source in Bangor and the Municipal Waste Solutions facility in Hampden and shall save the City of Bangor harmless from any or all claims of injury or damage resulting from their hauling operations.
- L. Said license will require renewal on or before July 1st of each year. License renewals shall be issued by the Public Works Director. Annual renewal fees shall be the same as currently in effect for new licenses. There shall be no refunds or proration of license fees, except that fees charged for new licenses obtained after March 31st shall be twenty-five (25) percent of the annual fees. All licenses and renewals expire on June 30th each year.
- M. Any commercial hauler who violates any provisions contained herein may receive a temporary suspension of license to haul within the City of Bangor, if, in the opinion of the Public Works Director, the violation is considered to be a serious breach of the provisions contained herein. Upon notice the commercial hauler of said temporary suspension, a public notice of said suspension will be issued and a hearing scheduled with the City Council Infrastructure Committee. If the Committee upholds the decision of the Public Works Director, then a penalty of One Hundred Fifty Dollars (\$150.00) for each violation shall be levied against the

commercial hauler, with each day of violation considered to be a separate offense; said penalty shall be paid to the City prior to reinstatement of the license. In the event that a commercial hauler shall have violated the provisions contained herein for five (5) days or more, or on (10) or more separate occasions, the City Council shall have the right to revoke any existing license and refuse to grant a license in the future. In the event of expiration or revocation of license, the hauler will no longer be allowed to collect acceptable solid waste within the City of Bangor; in the event that the hauler continues to do so, they shall be subject to the penalties mentioned above.

- N. Additional vehicles may be added to the above list by application through the Public Works Director's office, which will notify the Municipal Waste Solutions facility that the additional vehicles have been licensed. Additional fees will not be charged for the transfer of existing plates to a new vehicle.

The applicant acknowledges that they have read and fully understand Chapter 265-1 and 265-2, of the Laws and Ordinances of the City of Bangor, and the above conditions pertaining to the issuance of this license, and agrees to fully comply with said conditions.
